

1. Navbar look correction and Profile work also have to do properly backend means profile fetch and work properly . (School Header Name: Set the school name to "The Learning Step School" at the very top of the software interface)
2. **Executive Dashboard** Look correction and all img things of Erp are show and backend connection do properly like the dashboard work will help to run the erp properly . means main main features all showing on the dashboard and working properly with proper backend connection .
3. **Session Switching (Student Promotion)** : Implement precise session-isolation. Selecting a session must display only that session's complete data. Switching to a new session must completely clear old data from view, presenting a blank, fresh form interface. (OLD SESSION CLEAR AND GOES TO NEW SESSION AND ALSO THAT UPDATE EVERY WHERE) SESSION . *(Visibility Tag: Clearly display a "Promoted" indicator or status tag on the student profile/list.) *
4. **Fee Carry Forward**: This system add like suppose 2025-26 session student salary is pending and that session goes , on new ssion the fees is properly goes means the fees is properly goes to new session and show pending prvious session (2027) .
5. **Faculty Registration** – Add (Mandatory Joining Date) and also teacher salary must be generated on the date of the joining of a teacher . (strict)

3. Teacher Payroll & Joining Date (with Advance Pay)

- **Mandatory Joining Date**: Make the **Joining Date** a mandatory required field during teacher profile creation.
- **Salary Validation**: System validation must restrict generation of teacher salary for any month prior to their official joining date.
- **Due & Receipt Calculation**: Once a month's payment is processed, the subsequent month must automatically show as **Due**. Receipts must aggregate previous dues and current month fees into a unified total receivable display.
- **Advance Pay Integration**: Include an Advance Pay feature in the payroll/payment pop-up form with the following structural layout:

```

Basic/Net Salary: ₹4,706.07
Previous Dues: ₹0.00
Add Advance Pay (₹): [ 2000 ] (Admin can enter the advance amount here as needed)
Deduct Advance (if any): - ₹0.00 (Any previously taken advance will be automatically deducted here)
Final Total Amount: ₹6,706.07 (Accurate calculation)
    
```

6.

7. Expense Search :- this option give in (View, Edit, and Download Report) , expense search interface.
8. Teacher Panel Integration: Expense submissions from the teacher panel must correctly route to the admin panel for Approval and integrate into main expenses post-approval.
